¹ ACT and/or SAT not required by school for some or all applicants.

² In reporting ACT/SAT scores, the school did not include all students for whom it had scores or refused to tell U.S. News whether all students with scores had been included.

³ School declined to have a school official verify the accuracy of the information contained in the U.S. News Main Statistical Survey.

⁴ This rate, normally based on four years of data, is given here for less than four years because school didn't report rate for the most recent year or years to U.S. News.

Additional Information:

Average Peer Score: 5.0 = highest possible score

Idaho State University and Ball State University refused to fill out U.S. News statistical survey.

All institutions in the Regional ranking are in the Midwest region.
