

Finance 108 Learning Objectives:

The Course

This course serves as Quantitative Literacy Foundational Studies 2010 course and as such must meet certain objectives (QLLO). For Quantitative Literacy they are:

1. Solve for one or more unknowns from available information using appropriate methods;
2. Represent and solve real-world problems employing appropriate mathematical models;
3. Answer questions using empirical methods; and
4. Critically evaluate a quantitatively-based argument.
