

# A Secret No Longer

Getting the word out about  
Indiana State University

# Why does our story need to be told?

- ◆ Legislators question high appropriation per FTE
  - ◆ State budget places emphasis on costs
  - ◆ Image around the state could be better
    - Students
    - Counselors
    - Legislators
  - ◆ Renewed identity needs to be established, and our top faculty recognized for quality
- need to hear about us
- 

# What's the problem?

- ◆ Currently, we don't find out about your work until it's too late
- ◆ We don't have information on:
  - Publications
  - Service activities
  - Teaching accomplishments
  - Community engagement
- ◆ Have to continually demonstrate how much we contribute to the state through research, service, teaching, and engagement

# What do we need?

We need you

Tell us about your accomplishments

- research
- teaching
- presentations
- service

We need it quickly

Our solution

- go live
- use the internet

# What you can do

Indiana State University

Welcome to the electronic version of the Faculty Report of Professional Activity. The purposes of this site are twofold: first, it allows us to share your accomplishments with campus stakeholders and to get the word out about ISU and second, you've said that much of the reporting you're asked to do is redundant. Well, we've heard you and have tried to incorporate as many submissions into one document as possible. You will be able to enter, edit, and submit data all from the same form. We'll also be populating some of the data for you, such as course load and grants/contracts data. We soon hope to have the functionality in place to allow you to simply click and print the entire document for your own records. We hope you find the navigation, data entry, and layout easy to understand and use. [Follow this link for more information on the Annual Report process.](#)
