

Checklist for Spring 2008 Student Outcomes Assessment Goals

Department: African and African American Studies

Program: BA/BS

1. We have designated a faculty assessment team or individual faculty member to be responsible for coordinating the student learning outcomes assessment process for the program.

Yes No In progress

2. We have articulated clearly stated and viable intended student learning outcomes for the program.

Yes No In progress

3. We have completed a curriculum audit aligning required courses and other learning experiences with intended learning outcomes, to determine whether the program requirements are sufficient to support the intended outcomes.

Yes No In progress

4. We have determined what the best available evidence would be for assessing these outcomes, and whether additional evidence is needed.

Yes No In progress

Comments:

The new undergraduate assessment plan was recently approved and is now in place. Pending the administrative reorganization of the Department, assessment material will be collected by the current faculty members and kept by the interim chairperson. Beginning in the 2008-09 AY, a committee of program faculty members will assume full-time responsibility for assessment.
