2006 - 2007 Academic Annual Report

College of Technology

## Vision Statement

[View/Modify Vision](#)

**Below is your vision statement from previous years. Please take this opportunity to review it and if necessary update it.**

Note: We will be working on updating our statements during AY2006-07. Core Values • The study of technology is an essential part of our cultural heritage and an essential part of a university education. • High quality, state-of-the-art programs and the embracing of future technologies are highly valued. • The College of Technology faculty value experiential instruction using modern laboratories to develop knowledge and skill. • The College of Technology is a student-centered academic unit (i.e., high quality teaching and advising as well as meeting individual needs of students is central for all). • The College of Technology is dedicated to identifying, enhancing, and rewarding faculty and student excellence in scholarship (all forms) and service, and is committed to excellence, in general. Mission Statement The College of Technology will provide exemplary undergraduate and graduate programs, generate solutions and knowledge through research, and serve the technology needs of the State, the nation, and the international community. Vision Statement As an academic unit within a doctoral-granting institution, the faculty and staff of the College of Technology are dedicated to offering a full range of high-quality academic programs and related services. In addition, the College of Technology strives to take a lead position in preparing future university faculty for schools of technology and other doctorally-prepared professionals in technology management. Finally, the members of the College of Technology endeavor to develop an academic environment that is founded on quality, collegiality, mutual respect and support, and scholarship.
