

**Indiana State University
Community Engagement Activities
Department Annual Report
2005**

Project Name:

Midwest Center for Rural Health

Description

Agreement to Provide Graduate Assistant to Oversee Patient Physical Activity Training, Funded - \$9,200, 2004.

How do you see community engagement activities fitting in with your department in the future?

ISU's involvement in the program will conclude at the end of the 2004-04 academic year.

What do you feel has been the impact of the project?

It has provided an outreach opportunity for the department and a good experiential learning opportunity for the graduate student.

Faculty involved with students in this project outside of class

Dr. Pat Babington

Who from the community is involved?

Project Name:

Sycamore Elementary Field Day

Description

Sycamore Elementary Field Day (April, 2005). Planned the experiential learning event and brought 350 fourth and fifth graders from community elementary schools to the Arena. Children were able to experience physical activity and tour the human performance laboratories. Physical Education students were able to conduct the events and gain experience working with children in a movement setting.

How do you see community engagement activities fitting in with your department in the future?

A key component of the Department of Physical Education programs is community engagement and experiential learning. We anticipate this to continue for the foreseeable future.

What do you feel has been the impact of the project?

Local elementary students became more familiar with ISU. ISU students gained valuable practical experience.
