

Indiana State University

2006 - 2007 Academic Annual Report

Department of Industrial & Mechanical Technology

Vision Statement

[View/Modify Vision](#)

Below is your vision statement from previous years. Please take this opportunity to review it and if necessary update it.

Maintain the leadership position among Midwestern comprehensive universities offering comparable degree programs. This will be accomplished via: · Offering a variety of degree programs utilizing small-group discussion and lab-based courses primarily taught by full-time faculty; professional development of students through involvement in professional organizations, co-ops, and industry projects. · Course work that focuses on state-of-the-art technology that enables students to develop critical thinking, problem solving, and communication skills and that provides students with the knowledge and skills to create, understand, apply, manage, and evaluate technology ethically, and responsibly. · Maintenance of program-specific accreditation that verifies the above.
