## Vision Statement

[View/Modify Vision](#)

**The following is your vision statement loaded from previous submissions. Some administrative units, but not all, may wish to revise their vision statements based on the direction of the University toward pre-eminence. If this pertains to you, then please make changes in the box below:**

The IAC envisions its role as furthering an academic, teaching and learning, research, and community environment conducive to imparting the knowledge, skills and competencies needed for success in a global economy and to a diverse interdependent world in accordance with the highest professional standards. To achieve this vision, the IAC works with units across the campus to: increase, diversify the national origins and program enrollment of international students, both undergraduate and graduate; expand the number of faculty per year participating in overseas exchange programs; diversify the curricular offerings dealing with international topics; grow the number of students studying abroad and the sites available to students; innovate public service programs with international content; examine and focus the international dimensions of its mission in teaching research and public service.
