Project Name:

IT Internship Program

Description

The Office of Information Technology operates a year-round student internship program which provides technology services to the 42 member agencies of the United Way and other non-profit organization in the Wabash Valley.

How do you see community engagement activities fitting in with your department in the future?

This is an ongoing commitment for OIT.

What do you feel has been the impact of the project?

The impact of the student interns' work is significant. Not only do local non-profit agencies receive free technology services (including website development and hosting, network support, and computer repair), their clientele receive better service f

Faculty involved with students in this project outside of class
